Dear Members of the Board of Education,

We write to express our support for the recommendations of the South Asia Faculty Group with regard to the curriculum framework. The Group's concerns lie with a set of changes some extremist organizations are attempting to push into California textbooks under the guise of protecting Hinduism and Hindu students. We share these concerns and want to note the depth and breadth of expertise within the South Asia Faculty Group with regard to the matters on which they are weighing in.

The South Asia Faculty Group is especially concerned regarding the use of "India" in the place of "South Asia," distorting representations of the Indus Valley Civilization and its connection to Hinduism, and the sanitization of the connection of caste to Hinduism. On these matters, we respect the integrity and work of our colleagues on the South Asia Faculty Group, and are deeply troubled at reports of orchestrated and malicious campaigns of harassment against committee members and consultants.

We hope you will take seriously the recommendations of the South Asia Faculty Group, which are aimed at producing a balanced and pedagogically effective textbook.

Sincerely,
